

REGULATIONS
on the Procedure for Organizing and Conducting the II Ahmad al-Fergani
International Physics Olympiad

Chapter 1. General Provisions

1. These Regulations establish the procedure for organizing and conducting the II Ahmad al-Fergani International Physics Olympiad (hereinafter referred to as the International Olympiad), held at the international level among students of general secondary schools, academic lyceums and vocational education institutions, irrespective of their form of ownership.

2. The International Olympiad shall be organized and conducted in person once every two years.

The International Olympiad shall have its own website.

Chapter 2. Purpose and Objectives of the International Olympiad

3. The purposes of the International Olympiad are as follows:

to create an environment of friendly competition between talented students and their peers from foreign countries and to strengthen their skills for successful participation in international olympiads;

to enable school students to demonstrate their talent and creative abilities at the international level;

to increase students' interest in the in-depth study of physics.

4. The objectives of the International Olympiad are as follows:

to ensure that physics is taught in educational institutions at a level that meets modern requirements;

to identify capable and talented students in physics and create a system for encouraging them;

to assist capable and talented students in demonstrating their knowledge of physics on the international stage;

to improve the pedagogical skills of physics teachers and enable them to acquire international experience;

to further promote, among their peers worldwide, the achievements of talented young people at the International Olympiad.

Chapter 3. Procedure for Conducting the International Olympiad

5. The organization and conduct of the International Olympiad shall be coordinated by the Science Olympiad Center under the Agency for Specialized Educational Institutions of the Ministry of Preschool and School Education of the Republic of Uzbekistan.

6. Participants must be enrolled as school students during the Olympiad and must be under 20 years of age as of September 10, 2026.

Members of the national teams shall be registered online. Registration of participants shall close 30 days before the commencement of the International Olympiad.

Students enrolled in higher education institutions shall not be permitted to participate in the International Olympiad.

7. The International Olympiad shall be conducted in two rounds:

Round 1 shall be conducted as practical (laboratory) work and shall consist of two tasks worth a maximum of 40 points. Five hours shall be allocated for completing the tasks in Round 1;

Round 2 shall assess theoretical knowledge and shall consist of three written tasks worth a total of 60 points. Five hours shall be allocated for completing the tasks in Round 2.

The tasks for each round shall be discussed with the national team leaders and approved before the relevant round is conducted.

The maximum total score for both rounds shall be 100 points.

8. The composition of the participants and national team leaders shall be as follows: a foreign country's team shall consist of five participants and two team leaders;

more than one team from the same country may participate in the International Olympiad.

9. At the conclusion of the International Olympiad, the winners shall be determined, and the total number of winners shall not exceed 50 percent of all participants. The winners shall be awarded gold, silver and bronze medals, together with the corresponding diplomas. The medals shall be distributed in a ratio of 1:2:3, respectively.

10. In the moderation, the work of International Olympiad participants shall be defended by the relevant national team leader and assessed by the Scientific Committee.

11. The Organizing Committee shall ensure a unified scientific and methodological approach in preparing for and conducting the International Olympiad; form and approve the composition of the Scientific Committee; arrange for the Olympiad tasks to be prepared in Uzbek and English and translated by each team leader into the relevant language while maintaining their confidentiality; and approve the assessment criteria and the distribution of the final results.

12. The Scientific Committee shall ensure that the content of the International Olympiad tasks complies with the standards adopted at international Olympiads and that their level of complexity meets the established requirements.

13. The Scientific Committee shall assess the International Olympiad tasks on the basis of the approved assessment criteria and the principles of fairness.

14. The use of tablets, mobile phones and other electronic devices during the International Olympiad shall not be permitted (*except for electronic devices provided by the Organizing Committee for completing the practical tasks of the Olympiad*).

Chapter 4. Scientific Committee

15. To ensure objectivity, impartiality and transparency in determining the winners of the International Olympiad, a Scientific Committee comprising experienced foreign and local experts shall be established and approved by the Organizing Committee.

The Scientific Committee shall conduct all rounds of the Olympiad.

The Scientific Committee shall have an odd number of members, who shall elect the Chair from among themselves.

16. The Scientific Committee shall perform the following functions:

- review the work completed by participants in accordance with the approved assessment criteria and assess it in consultation with the national team leaders;

- prepare and formalize decisions on the results of the International Olympiad in accordance with the established procedure;

- establish the appeals procedure;

- announce the results of the International Olympiad in the presence of the participants and national team leaders;

- submit to the Organizing Committee a detailed report on the results of the International Olympiad together with the necessary documents.

Chapter 5. Examination Room Invigilators

17. Examination room invigilators shall perform the following functions:

- briefly explain the rules and procedures of the International Olympiad to participants;

- announce the starting and finishing times and supervise the conduct of the International Olympiad;

- draw up an official report in respect of any participant who fails to comply with the established rules during the International Olympiad. Such a participant shall be disqualified from the Olympiad by decision of the Scientific Committee. The report shall be signed by the Chair and members of the Scientific Committee and submitted to the Organizing Committee.

Chapter 6. Awards for Winners of the International Olympiad

18. The winners and prize-winners of the International Olympiad shall be awarded gold, silver and bronze medals, diplomas and commemorative gifts by the Organizing Committee.

Chapter 7. Final Provisions

19. Any disputes arising from the application of these Regulations shall be resolved in accordance with the procedure established by law.

20. Persons responsible for violating the requirements of these Regulations shall be held liable in accordance with the procedure established by law.
